DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1-3 are rejected under 35 U.S.C. 102(a) as being anticipated by Examination on synthesis of phosphonated poly (4-phenoxybenzoyl-1, 4-phenylene) Yanagimachi et al. Polymer Preprints, Japan Vol. 51, No. 4.

3. The reference shows the compound, the method of making the compound, the properties of the compound and the compound in a hydrocarbon electrolyte. Applicants' claims are not novel.

Allowable Subject Matter

4. Claims 4-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
